

Create Your Future

Forever Living

How?

I can feel your disbelief from here!
Nothing is that easy, if it is that easy
why havent all my friends made their
fortune doing this already?
The simple answer to that question is
1. Conditioning 2. Fear!

We are conditioned from an early age
that our future security is achieved by
obtaining a secure and pensionable job
as an employee, and keeping that job,
hopefully with a few promotions thrown
in over a period of 40 years. After
which we get to retire in our 60's and if
we are lucky then we get some time to
do what we want to do. Well having
worked in a government pensionable
job now for almost thirty years, I still
find myself struggling to pay my
mortgage and monthly bills, if I am
lucky I get one holiday per year! That is
not my idea of success and it certainly
isnt my idea of creating the future I
want now!

The other reason we dont step outside
the conformist paradigm is FEAR!
All our family members have taken the
conformist road before us...perhaps,
and we are conditioned to take the
safe, secure route. We are not brought
up to take chances or to go in new
directions everything is set up around
us so that we move in a similar
direction to our parents etc.

Well I have decided to think and act for
myself now. Dont get me wrong, I am
grateful for the security of my day job,
but it isnt the work that I want to do, it
doesnt give me the satisfaction that I
seek anymore. My holistic work is
where my satisfaction and joy lies. And
so I am not willing to wait until I retire

to open my own Holistic Centre - thats too long for me to wait! I want to open it in 3 - 5 years from now...I want to employ others in my centre I want to be my own boss, I don't want to spend the rest of my life working for someone else, I want to create my own dream NOW! To be able to travel and see the world when I am still young enough and able enough to enjoy it!

And that is why I have become involved with a fantastic company called Forever Living! Read more about this company at www.foreverliving.com.

This company offer people the opportunity to make their dreams come true! You still have to work hard...but the difference is you are working to create your own business and you get to reap the benefits of every hour you put into the business...because you are an independent distributor working for yourself but NOT BY YOURSELF.

This company are a network marketing company, a company who provide fantastic training to their people, because they want to see you succeed! A company who acknowledge every achievement you make along the road to success. In 29 years in my day job, other than through achieving promotions, my company has never encouraged, given any acknowledgement to its staff. Within 2 months of joining Forever Living, I have been invited onto a stage in front of 200 fellow entrepreneurs and been praised and given acknowledgement for my achievement to date in the company! Now that is what I call a positive and vibrant approach to motivating people! During that day, I mixed with many people, and without exception each person I met, were positive, happy and extremely motivated people. It was a joy to be in their company and each one was willing to share with you, how they achieved their level of success to date. Everyone helping each other to achieve more and more. It was an extremely novel experience for me and one which solidified my decision to join Forever Living.
