Welcome

ANGEL TEACHER REUNION IN FINDHORN, SCOTLAND

I have just returned from the Reunion of Angel Teachers which took place in Findhorn, Scotland. We are all Angel Teachers in the Diana Cooper School, I qualified in April this year so this was my first reunion. Diana Cooper attended the reunion to meet everyone and she was particularly interested to meet and talk to the recent graduates of her school, like me. It was a wonderful opportunity to meet Diana as she is so inspiring and has a wonderful nurturing Mother energy about her. I felt honoured to talk to her, but really she is very down to earth and she really makes you feel at ease in her presence. Diana shared beautiful meditations with the group and also spoke at length on her current work which involves working with "Orbs of Light", this was very interesting. Basically, these orbs are the Angels & Archangels, Unicorns and fairies and other beings of light, giving us a visual representation of their presence now on earth. We as humans need to see and touch and feel generally before we believe, and so in this way the Angels are giving us a clear picture of their presence. At the reunion, many people were taking photographs and the number of orbs present in these photographs was absolutely amazing. It was wonderful to see "ordinary people" producing such exciting photographs
...some amazing orbs were captured and this caused great excitement and gave cause for celebrations.
There were approximately 50 teachers in the group, and it was so enjoyable to sit and chat with like minded people and share some wonderful stories about the presence of Angels in our lives and how wonderful it is

Upcoming Events at
Spiritual Rays!

WORKSHOPS /EVENTS JULY 2008

RAINBOW ANGELS **COURSE**

11TH JULY, 2008

Working with colour in your Life
Archangel Colour Rays
& The Chakras

to be guided and supported by these fantastic beings of Light. The School AGM was also held and nominations accepted for membership of The Service Group. This group administer the global activities of the Diana Cooper School annually. I have been nominated to be on this Service Group for 2008/2009 and I look forward with great excitement to serving on the group and contributing my services to the Diana Cooper School this year. I will also be training as a Master Teacher of the School in January 2009 and I am looking forward to this already. All the teachers of the school are open and willing to share ideas with each other and are a great support network for each other. There is a great need for the Light of the Angels & Archangels to be spread in the world and we all have a part to play in this wonderful task. We are all part of the ONE, and so by spreading the Light from one to the other, we can illuminate the planet. We also need to raise our awareness to preserve and respect the beautiful planet we are privileged to share with our fellow human beings as we all complete our journey back to Source.

You may not feel drawn to be an Angel Teacher who runs workshops but by completing even a one day Angel course/workshop you will receive the wise guidance and genuine support of the Angelic Kingdom and you will be able to show others how wonderful their energy is and how they can change their lives by opening to their wonderful wisdom and guidance.

ALLOW THE ANGELS TO ILLUMINATE YOUR PATH!

***A gift with a
difference!***

Colour is simply light of different wavelengths, and each colour has its own specific wavelength and vibration. Each colour resonates with energies in different areas of the body.

We absorb colour energy through our eyes and also through our skin and our Aura. By working with each of the seven rainbow colours we are working with each of the seven energy centres and each corresponding physical part of our bodies.

This is one of the reasons colour healing works so well.

By working with the Archangels of each colour ray, we experience a heightened energy vibration which amplifies the healing power of each colour.

We are attracted to different colours each day and by learning why and working consciously with the Archangel of each colour, we can bring healing into our lives on a daily basis.

On the workshop we will connect with the Archangels Light Rays and tune into the distinctive healing energy of colour. The Archangels energy is gentle but a powerful healing energy, we will make this connection through various meditations and exercises.

11TH JULY, 2008

10.00 A.M. TO 6.00 P.M.

INVESTMENT: €100

(Non-Refundable Deposit of €40)

WORKING WITH ANGELS/ARCHANGELS

The feeling of peace, love and happiness that you experience when you are in touch with Angels is unmatched in the physical world, and the wonderful thing is their love and care is immeasurable and limitless.

FREE NLP INTRODUCTORY TALKS

**IRISH ACADEMY OF NLP
TALKS HOSTED BY JACQUI ROBERTS
MASTER-TRAINER
OF NEURO-LINGUISTIC PROGRAMMING**

Richard Bandler is the originator of NLP (Neuro-Linguistic Programming) as far back as the early 1970's. Basically, Richard studied the most successful people in each profession and modelled them. Which effectively means he took everything that worked from their experience and modelled it and formed strategies which when applied in any situation WORK!

By learning the strategies of NLP you will become a successful communicator, be free of phobias or fears and be equipped with the tools to live a happy successful life NOW! Imagine being able to easily change a life long habit, or inefficient pattern of behaviour quickly and for the rest of your life. NLP provides powerful ways of doing this.

The Irish Academy of Neuro-Linguistic Programming is offering you this special opportunity to find out what Neuro-Linguistic Programming or NLP is all about

NLP is a highly effective methodology for modelling excellence and creating change. It is based on the principle that all behaviour has a structure and that this structure can be identified, learned and adapted to create specific outcomes. NLP is the study of these patterns. It is designed to add flexibility, effectiveness and precision to create better choices to your life. The 'habits of success' (i.e. the thought processes that are automatically used by successful people) can be studied and shared using NLP. They can then be implemented to help yourself and others develop and improve any area of your life. Immediately, easily, and with lasting results.

NLP for everybody is an exhilarating experience that empowers you to overcome your barriers/fears and to unleash your hidden strengths and talents to create the future you

want .

THESE FREE NLP Talks are being held on:

Saturday 26th July, 2008

Saturday, 16th August, 2008

If you wish to avail of this unique opportunity, please register your interest NOW as places are limited.
